The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-31 are rejected under 35 U.S.C. 102(b) as being anticipated by Goodacre et al (EP0334617).

Goodacre et al teach a sweetener composition comprising agglomerating hollow spheroids or part spheroids of microcrystalline sucrose with sucralose and a binder (i.e. sucrose) as is claimed (see entire document, especially page 2, lines 3-5; page 3, lines 9, 17-21, 30-34, 60, and 62; Examples 2, 4, and 10, and ; Claims 1, 11-14, 18, and 19).

The claimed Hunter values would be no more than inherent to Goodacre et al as the same components and process steps are used.

Cherukuri et al (US 4981698) and Daenkindt et al (EP 0335852) are cited as of interest to the claimed invention.
